

## **Announcement**

### **No. SD 001/2023**

#### **Target of Greenhouse Gas Emissions**

G-Able Public Company Limited (“the Group”) intends to reduce Greenhouse Gas Emissions in accordance with the Carbon Footprint Standard and Thailand Greenhouse Gas Management Organization (Public Organization) for Emission Factor in order to become a low-carbon society in the future.

In order to achieve above intention, the Group has also established 2023 target of GHG emissions to reduce by 6.3% from 2022.

In addition, the Group has set targets for electricity and water usage in 2023 by focusing on and campaigning for employees and related agencies. Resources are used in a worthwhile manner and get the most benefit as well.

Announced on 9th October 2023

(Dr. Chaiyuth Chunnahacha)

Chief Executive Officer
