

## **Announcement**

**No. SD 001/2025**

### **Target of Greenhouse Gas Emissions**

G-Able Public Company Limited (“the Group”) intends to reduce Greenhouse Gas Emissions in accordance with the Carbon Footprint Standard and Thailand Greenhouse Gas Management Organization (Public Organization) for Emission Factor in order to become a low-carbon society in the future.

In order to achieve the above intention, the Group has established 2025 target of GHG emissions to reduce by 1% from 2024. In the past year, the Group was able to reduce greenhouse gas emissions according to the goals set.

In addition, the Group has continuously set targets for electricity and water usage in 2025 by focusing on and campaigning for employees and related agencies. Resources are used in a worthwhile manner and get the most benefit as well.

Announced on 14th May 2025

(Dr. Chaoyuth Chunnahacha)

Chief Executive Officer
