No. SD 001/2026

Target of Greenhouse Gas Emissions

G-Able Public Company Limited (“the Group”) intends to reduce Greenhouse Gas Emissions in accordance with the Carbon Footprint Standard and Thailand Greenhouse Gas Management Organization (Public Organization) for Emission Factor in order to become a low-carbon society in the future.

To achieve these goals, the Group aims to reduce greenhouse gas emissions by 1 percent by 2026 compared to 2025. Last year, the Group successfully achieved its greenhouse gas emission target. Furthermore, the Group has set a long-term target for the next six years (Year 2031) to reduce greenhouse gas emissions by a rate of 6 percent from 2025, setting 2025 as the baseline year.

Furthermore, the Group has set a target to reduce electricity and water consumption by 1 percent in 2026 compared to 2025, by focusing on and promoting the efficient and optimal use of resources among employees and related departments.

Announced on 11th May 2026

(Dr. Chaiyuth Chunnahacha)

Chief Executive Officer
